WASHINGTON, March 12 .- The Navy Department today advertised for proposals for the construction of a protected steel cruiser of 7300 tons displacement, specially provided for in the Naval Appropriation act, approved March 2, 1891. The time fixed for opening such proposals is June 1 next. The vessel is designated as Cruiser No. 13. All material used in its construction, including en-gines, boilers and machinery, is required to be of domestic manufacture. The First Train of Teams Left Phonix Yesterday. The first big teams that have gone to Maricopa after freight for several years, pulled out for there yesterday. Messrs. unanimously.

Council Bill No. 72, relating to in- Reed sent teams, thirteen wagons in Coyle, Johnson, Goodin, Peers and in all. Nearly all the wagons were loaded over with barley and hay, Mr. Johnson's teams taking wool for Daggs Bros. These freighters all went to-

gether for mutual assistance. The road to Maricopa has not been traveled for several years and will probably need some repairs, and a large force of men being together can soon overcome any small barriers to their progress that might exist. The worst place is probably through the Gila river bottom, where considerable work may be necessary. The party in-tended to cross the Salt river at Wilson ford, above Gray's, but a better one was opened about half way between Wilson's and the Tempe crossing below the bridge. If good luck is had some freight may be expected in by next Tuesday or Wednesday.

The price for hauling from Maricopa to Phœnix has not been decided upon

and it will depend a great deal on the condition of the road, though unless it is in better shape than is generally supposed 60 or 75 cents per hundred pounds will probably be the price for the first
